Hello, Mr Boyce.

I'm following up on my request that you (OMH) provide me with the name of the insurer that issues PSCH's policy for General Liability, as well as that policy number.

What have you found?

Hello, Mr Boyce.

I still need to know the answer to the question I asked you during our chat on Sept 23: What is the insurance company (or the agent) who underwrites General Liability Insurance for Island House?

That can be either the insurer for the building's owner (STEL), or the insurer for PSCH.

We agreed that the insurance information must be *somewhere* at OMH; without it, OMH could not have certified the agency, You promised to find out. What have you found?
